To Whom It May Concern

I am delighted to write this letter to wholeheartedly recommend Victor Alves da Silva Sales for this master's degree program. As the Head of Software Engineering at TAGNA Technology, I have had the privilege of working closely with Victor, witnessing firsthand his exceptional technical skills, strong work ethic, and unwavering commitment to continuous improvement.

Victor is a highly dedicated professional who consistently demonstrates proactivity, responsibility, and a genuine passion for technology. His work at TAGNA Technology has been instrumental in the development of complex software solutions, including projects that integrate IoT technologies with real-time data dashboards, connecting industrial machines to the internet. His ability to quickly adapt to new challenges and technologies is truly remarkable.

What sets Victor apart is not just his technical expertise in software development, particularly with Java, React, Node.js, and SQL Databases, but also his innovative mindset. He has a proven track record of optimizing code for performance, implementing efficient state management solutions, and contributing to projects that require a deep understanding of database management.

Beyond his technical skills, Victor's interpersonal qualities are outstanding. He fosters a positive and collaborative work environment, always willing to support his colleagues and share knowledge.

I am confident that Victor's strong commitment to personal and professional growth, combined with his technical excellence and outstanding interpersonal skills, makes him an ideal candidate for any master's degree program focused on computer science, especially software engineering or artificial intelligence. He will undoubtedly be a valuable asset to both academic and professional environments.

Sincerely,

Diego Magalhães
Head of software engineering
